

How to Ramp-up a Product in a Demand Shock: Evidence from Ventilator Challenge UK

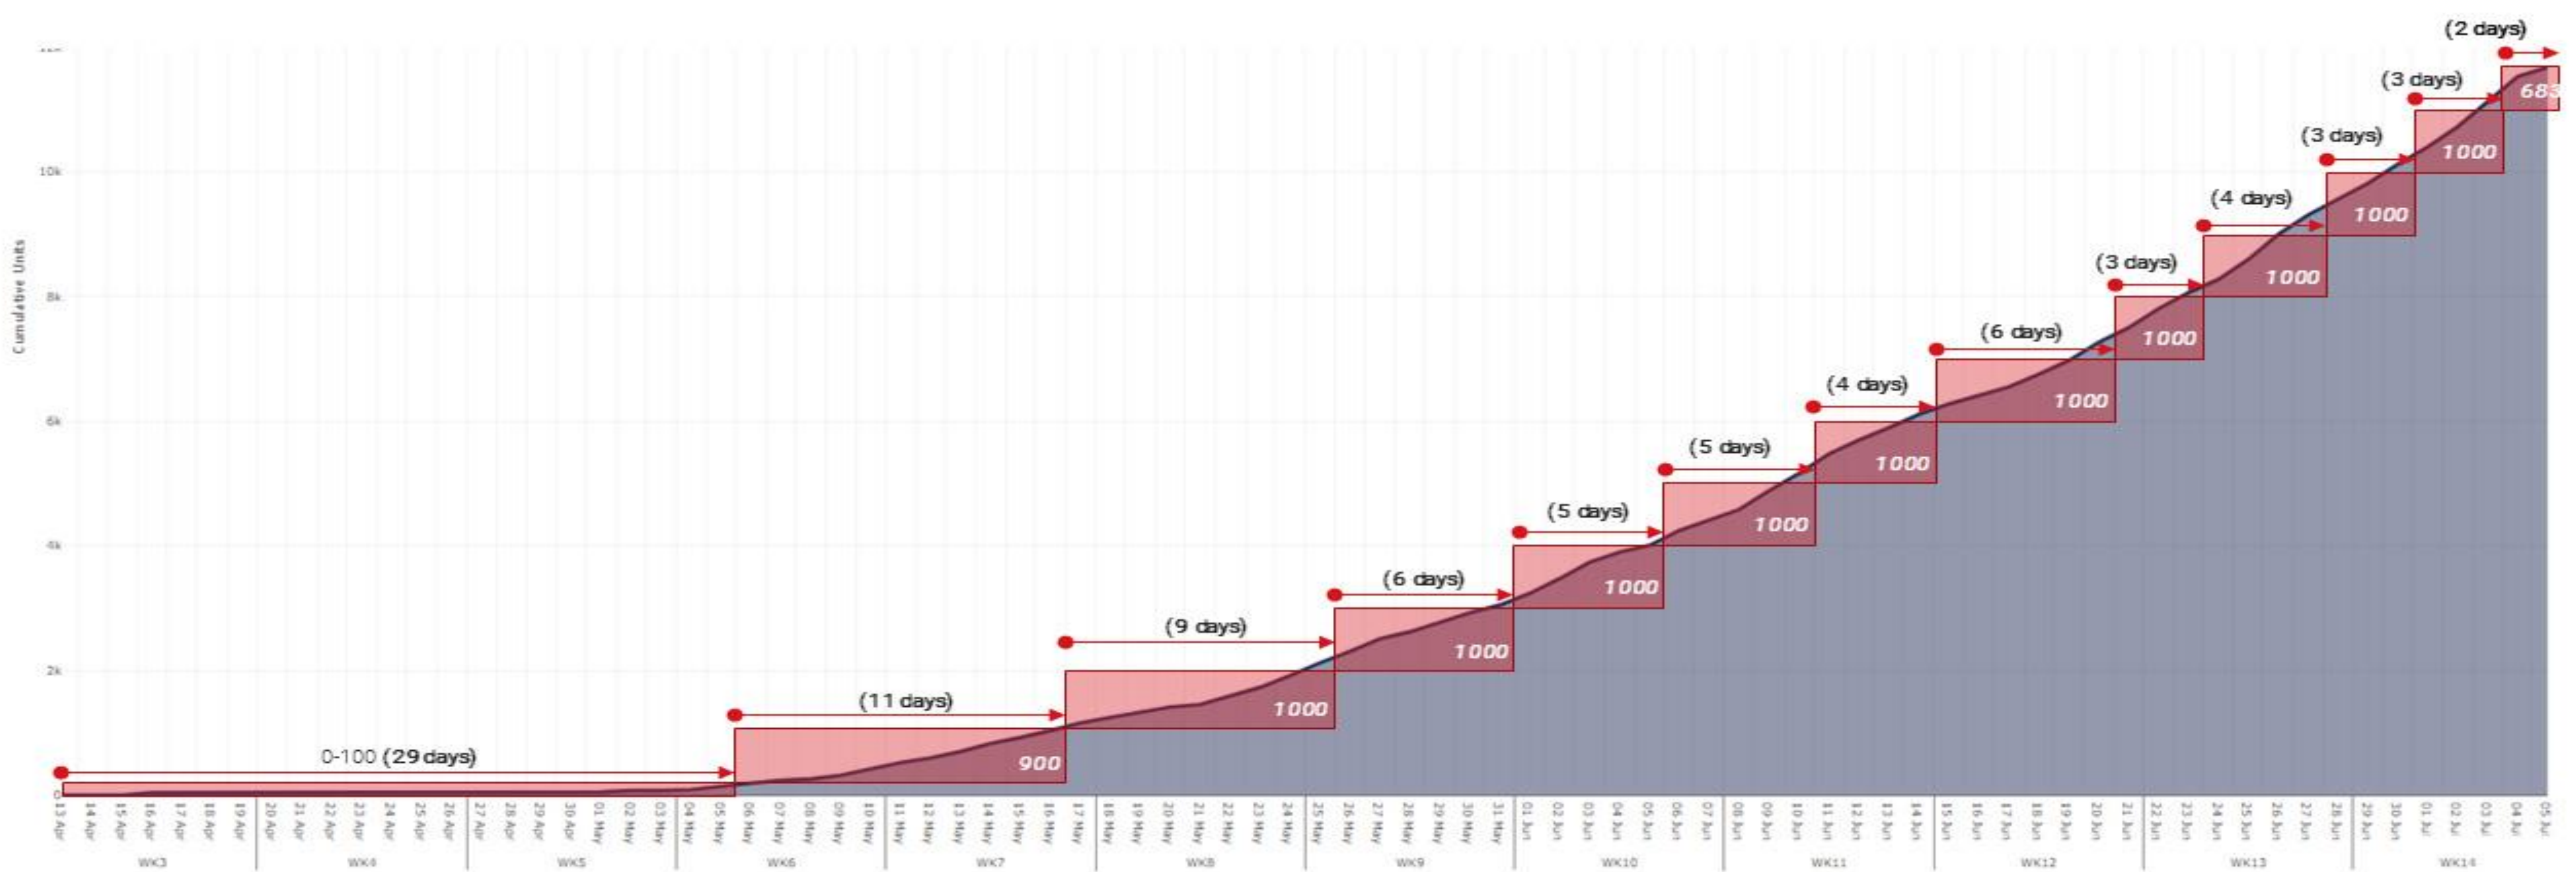

Nikolay Kazantsev, Aleksey Petrovskii
 nikolai.kazantsev@postgrad.Manchester.ac.uk

Problem

Recent COVID-19 outbreak has provided an example how excellence in collaboration design and Industry 4.0 technologies allowed UK to cover the national need for ventilators in June 2020. The goal of Ventilator Challenge UK was to produce the lifesaving product and the goal of this poster is to simulate the ramp-up of Ventilator UK Challenge (2020).
